

カナダ人が英語組曲『ニコニコ動画』を歌ってくれました*¹の動画に書かれていた歌詞を書き写しただけ。

マレーシア人の Maiki さんが訳して歌った*²のがはじまり。

いや、おもわず iPod に入れたんだけど、音声だけで聞き取れる自信がなかったもので。

Bring me higher an higher, endlessly to the depth of my heat
With the techniques that only you know how to use
Melt me down to nothing
Flutter of the heart fall from grace in the middle of the swirling instincts
A dream that's only for tonight, I will dance as much as I can

I still remember that sunny day
Magical game that we used to play
pour down endlessly, couldn't possibly take these memories from me
I'll see you tomorrow, then we can say "we're laughing and humming all of
the way"
Gather happiness, using togetherness
You'll find it isn't hard if you can really try
Gotta learn to chase it, gotta yearn to grasp it
We love dreamin big, so dream and dream "suki deshou"

It's konbu seaweed soup, it works like a charm
It's my tech for mixing up bonito and konbu
It's konbu seaweed soup, it works like a charm
It's only bonito and konbu

Aaaah, what to do?
These arms I am waving high up
My beloved moon, my beloved upside down moon

Yanmani Yanmani Yanmani thisisnotEnglish!
Yanmani Yanmani Yanmani whatlanguageisthis?
Yanmani Yanmani Yanmani I'mmakingupthiscrap!
That dream connects the two people

Don't follow the guide given from the star that shows you everything,
and run straight up towards the door in the sky.
I will go wherever the wind takes me to.

Yo wassup, this is KL.
As you can see I'm doing Maiki's version of this medley
I really wanted to do Japanese at this part but I'll sound too gay
Hey does anyone watch South Park?
I really love Stan and Kyle. They're my fav cuz they're so cute.
Brave Story needs more loving.
Hell, Wataru needs more loving.
No, Mitsuru needs to GIVE the loving.
Why the hell are they, so cute? Who knows.
Anyways...
Going to school is such a drag.
I wish I wasn't such a procrastinator.
It's really bad for me.
Goh, I really need some more sleep

Now is the time to stand your ground.
Warriors of destiny
With your swords of lightnings made, strike down your enemies!
Exitting the forest is super simple
All you have to do is follow these path turns
For the rest of your gaming life

Nanananana na na

Right now there are so many things that I don't understand
But I'm sure of my path, and all I have to do is follow it.
I'll never give a damn nor change my mind, be you friend or foe
There's no way I'll ever let go of this hand
This is my scarlet ooth!

I can't freaking beat it donw!
No matter how many times I try to fight that stupid Airman!
Sneaked behind its back and blasted as much as I could
But he'll always blow me away with his attack
I tried my luck on the freaking time attack
But there's no point if there's that stupid Airman!
So to make sure I'll win next time, I'll keep that on E tank to the very
end.

Shinig eyes of bravery, that revolutionary soul
I'll just keep aiming for the future forever and ever

Uninstall, uninstall
how the countless lives on this blue planet are essentially one
Right now, I can't even begin to comprehend

Uninstall, uninstall
It looks like I'll have no choice but to act as a warrior
who knows nothing of fear, Uninstall.

Fading contrail, we just stared on to it.
It dazzled my eyes, I ran away.
I will always be weak, ever since that day.
I never change, I just never ever change myself.
It hurts me so much, I had to go.
I relentlessly let go of my hand.

Where are you now, where are you now, what are you doing at this moment?
Are you at the other side of this wide, wide sky?
Will you keep smiling just as you always have?
That's the only thing that I can wish for you.

I hate you, hate you, love you
(an an an an an)
Who the hell, who the hell can't be alive without you.
Why dangit why, why the hell am I singing this?
Why why why why don't I miss you a lot forever.

I don't know that kind of magic.
If I tell you my feelings, I will get so screwed up.
I am totally different than you.
Please oh please don't steal people's hearts that easily, you jackass.

I remember I've done this before as a kid
It's a very blurry memory.
With my red and white baseball cap,
Ultraman! Ultraman! Seven!
Nostalgia from my childhood
When we got curry for recess time

We stamped those silver spoons to our eys,
Ultraman! Ultraman! Seven!
But no, I can't even recall any of that anymore
Being chased by something everyday is how I live now.
The number of scenes I have missed are a
thousand million, a thousand million.
The seasons that passed by were just like graffiti.
The amount of courage you have given me a
thousand million, a thousand million.
The seasons that passed by were just dramatic.

That's why I'll follow you forever
Even if I never see anything but your agony
Because you shine through the darkness that has swallowed the world.
Now that the future is approaching
Weakness is encroaching
But I won't let that destroy my soul
I'll do it my way, and that means I am with you.
I love you so 'God Bless!'

Just take it! At the end, the one who will be laughing's gonna be me!
'Cause I'm wearing sailor uniform <- conclusion.
Although it's Monday, I'm really in a bad mood,
how am I suppose to take this?
I'd rather have the summer uniform, thanks, It's so cute!

To all in the whole wide world,
Clankety clank kyute, it's figure art!
Uh-on, one more time, louder please
Let's yell it out all at once,
"Figures count as 3-dimensional!"

All this time three twelve thousand years I know "Aishiteru."
Eight thousand years from the time that I've met you
My love grows strong than ever before.
One hundred million and two thousand years from now, "Aishiteru."
I want you to know since you come in my life
Every day, every night, you give light into the darkness skies.
