概要

instance Show Char の実装において、エスケープの処理が未実装

```
instance Show Char where
  -- todo: escape
  show c = ['\'' , c, '\'' ]
  showList cs = (:) '\'' . showl cs
    where -- showl "" = (:) '\''
          showl [] = (:) '\''
          -- showl ('':cs) = (++) "\\\"" . showl cs
          showl (c:cs) = showLitChar c . showl cs

  -- todo: should convert to printable characters
  showLitChar c = (++) [c]
```
